The Teague Family Foundation Presents

Moulin Rouge

A Spectacular Rising Stars Gala Benefit

Are you aware there are over 24,000 children in foster care in Los Angeles County? Rising Stars is the annual fund raising event that supports many of these young people. This event enables the Department of Children and Family Services to support graduating foster youth as they become emancipated and pursue their educational goals beyond high school. As a community we come together annually to acknowledge their inner strength, outstanding academic achievement and commitment to succeeding in the future.

Proceeds also allow the Norris Center for the Performing Arts Negri Learning Center to offer performing arts scholarships to under-served youth throughout Los Angeles County. The Negri Learning Center promotes the creative growth of young people through the study of performing arts. With many arts programs being eliminated from school curriculums, it is imperative that these programs be available to all. Performing arts training empowers young people to become more confident adults.

Please join us as we come together to assist foster youth and under-served youth achieve their dreams.

Rising Stars Gala Benefit for:
